read(stream,data) line 668, in read% (length,stream tesll)) I'm a noob just downloaded blender I'm assuming I downloaded something incorrectly.. 77 scripts addons ioscenenif operations nifimportop py line 161 in execute return nifimport.. The error for importing looks like this C users Tyson appdata roaming blender foundation blender 2.

header read(stream,data-self) line 352, in read attrvalue read(stream,data) line 300, in read elem.. Please advise! Thanks Gameaddict320
